COMPUTER SCIENCE STUDENT | AI & CYBERSECURITY

Computer Science student with experience in AI projects, IT support, and cybersecurity training. Skilled in troubleshooting, programming, and problem-solving with proven adaptability. Eager to apply software development skills in impactful tech roles.

- **Python** □ Linux / Kali Linux □ Bilingual □ **Technical Troubleshooting** □ Public Speaking □ Communication
□ **Java** □ Cybersecurity □ Project Coordination □ Problem Solving □ **Adaptability** □ Machine Learning

EDUCATION

Bachelors of Science in Computer Science
Texas A&M University – San Antonio

Spring 2027
GPA 3.77

Associates of Science
Palo Alto College – San Antonio

Spring 2024
GPA 3.948

TECHNICAL EXPERIENCE & RESEARCH PROJECTS

TAMUSA ARCATS Research Computing Workshop

2025

- Participated in a research-focused workshop exploring high-performance computing, research infrastructure, and Python development in Jupyter Lab environments.

Rowdy Hacks Hackathon

2024

- Engineered a game inspired by "Hack to the Future," featuring a DeLorean akin to the Chrome Dino game.
- Collaborated with team members to ideate, design, and develop the game within the hackathon timeframe.

[File Sorter Project \(Python\)](#)

2024

- Developed a Python script to automatically sort files by type, improving system organization. Used libraries like os and filetype for efficient file handling and categorization.

WORK EXPERIENCE & VOLUNTEER WORK

Texas A&M University – San Antonio

2025

[VICEROY Cybersecurity Scholar & Intern](#)

San Antonio, TX

- Led cybersecurity workshops and labs, providing troubleshooting support and assisting with capture-the-flag (CTF) preparation.
- Developed flyers, documentation, and instructional materials to promote events and support student learning.
- Collaborated with faculty and IT staff to organize resources and attended the Black Hat Conference for exposure to emerging tools and practices.

Our Lady Queen of Heaven

2024

Website Administrator & IT Support

San Antonio, TX

- Provided IT support by resetting computers, recovering passwords, troubleshooting Wi-Fi, and managing the church's website. Fixed and connected the printer, adapting to technical challenges to ensure smooth operations.

Sacred Heart & Our Lady Queen of Heaven
Church Server

2016-2024

San Antonio, TX

- Assisted during masses and special events, supervised Bible study, supported musical performances, and maintained church cleanliness and order.

AWARDS & CERTIFICATIONS

- 30-hour OSHA Safety Training (2023)
- Associates of Science – Palo Alto College (2024)
- [Intro to Machine Learning – Kaggle Certification](#)
- CompTIA Security+
- TAMUSA 3rd Place – Algorithm Challenge
- Rice University – 2nd Place (x2) Hackathon Awards
